CAREER OBJECTIVE

Computer Science undergraduate (CGPA 8.8) with Python and Java programming skills, networking fundamentals from Cisco, and full-stack internship experience, seeking an internship and placement opportunity to strengthen my hands-on experience and contribute to a company that values customer satisfaction and experience.

EDUCATION

Course	Institute	Year of Passing	CGPA / Percentage
Bachelor of Engineering (CSE)	IFET College of Engineering	2028	8.8 (up to 4th semester)
HSC	St Joseph Matric Higher Secondary School, Cuddalore	2024	82%
SSLC	St Joseph Matric Higher Secondary School, Cuddalore	2022	88.6%

TECHNICAL SKILLS

- **Programming:** Python, C, Java
- **Web:** HTML, CSS, JavaScript
- **Databases:** SQL (Basic), DBMS
- **Networking & Hardware:** Computer networking fundamentals (Cisco CCNA: Introduction to Networks), computer hardware basics
- **Tools:** GitHub, VS Code, MS Word, MS PowerPoint, MS Excel

INTERNSHIPS & EXPERIENCE

- **Full Stack Developer** – Mindfulai Technologies
- **Python Intern (1 month)** – Nextgen Solutions

PROJECTS

- **AI Hospital Command Center** (XGBoost, React, Flask, Render, Vercel) – Developed a full-stack AI system that predicts hospital patient admissions with 91.81% accuracy using XGBoost trained on 1,094 days of synthetic hospital data. Built 11+ interactive React components with Explainable AI, Emergency Mode, and What-If Simulation, connected via a Flask API on Render and deployed the frontend on Vercel. **Live:** https://ai-hospital-command-center-sepia.vercel.app/
- **Intelligent Land Record Digitization & Validation System** (AI, OCR) – Developed a multidisciplinary AI-based system to digitize land documents using OCR, extract key land details, and validate them against reference records and cadastral data. The system identifies mismatches and provides validation status to support faster and more reliable land-record verification.
- **Online Parking Reservation System with AI Chatbot** (HTML, CSS, JavaScript) – Web application with an integrated AI chatbot to assist users.
- **GSM-Based Underground Cable Fault Monitoring System** (Hardware) – Hardware mini project for monitoring and reporting faults in underground cables using GSM.
- **Inventory Management System** (Java, Database Connectivity) – Java application with database connectivity for managing inventory records.

HACKATHONS & ACHIEVEMENTS

- **3rd Place** in the Prompt Engineering Challenge, Prince Shri Venkateshwara Padmavathy Engineering College, Chennai
- Participated in the HackIndia BioHack Hackathon, SIMATS, Chennai
- Participated in the Mini Hackathon, Prince Shri Venkateshwara Padmavathy Engineering College, Chennai
- Participated in HackIndia 2025 Hackathon at Mailam Engineering College.
- Selected in the Internal round of Smart India Hackathon (SIH) 2025 and 2026.
- Participated in the National Level Srinivasa Ramanujan Competition and cleared Level 1 and Level 2.
- Solved 230+ problems on SkillRack.
- Presented a paper at a technical symposium: "Accident Prevention System via Cardiac Response".
- Attended a workshop on IoT and Embedded Systems at IIT Research Park.
